

CATENARY WIRE & TURNBUCKLE

The Generic range of Cable Suspension Products consists of insulated 3mm catenary wire and fixing accessories. Wire rope grips or crimp ferrules with thumbles are used to create a loop at either end of the catenary wire for connecting onto adjustable turnbuckles.

- ➔ Blue PVC insulated wire version
- ➔ 7 strand galvanised version
- ➔ Hook & eye turnbuckles
- ➔ Eye & eye turnbuckles
- ➔ Swage tool suitable for crimp ferrales
