

UNMANAGED SWITCH

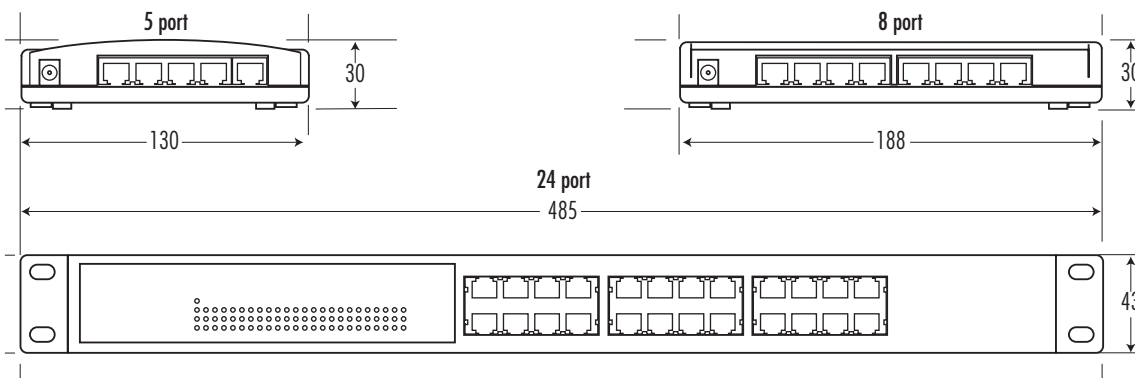

The Generic range of Unmanaged Switches provides a simple high speed connection for your network. The switches are capable of running in full duplex 100Mbps mode and can deliver up to 200Mbps to each desk top. The 5 and 8 port models are compact, versatile, easy to install and are perfect for the home office or small business requirement. The rack mount 24 port model supports auto-crossover for easy up-linking, and has Automatic speed and duplex mode sensing.
