

MODULAR TELEPHONE CORD

Generic flat Modular Cords are designed for voice applications at the work area where UTP round cable will not fit into telephone handsets. The Cables are produced with an RJ45 8P8C plug to interface with the outlet and a RJ12 6P4C plug to interface with the telephone.

- ➔ Available in 2m, 3m & 5m lengths
- ➔ Suitable for voice applications
- ➔ Flexible flat jacket
- ➔ Available in black & ivory
- ➔ ACA Compliant
