

# FLAT MODULAR TELEPHONE CABLE

Generic Flat Modular Cable is designed for voice applications at the work area where UTP Round Cable will not fit into telephone handsets. The Cable is produced on 100 meter reels and is constructed of 4/6 colour coded stranded 28AWG (7/36) copper conductors with soft PVC ivory or black outer sheath. The Flat Cable may be terminated with Generic modular plugs.

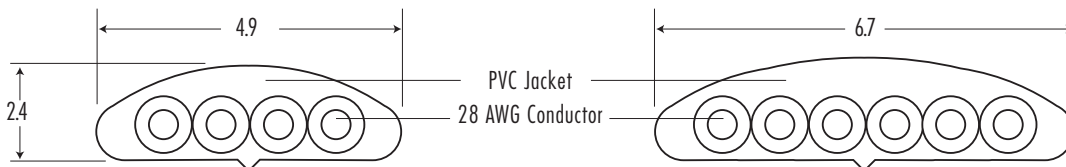

- ➔ Available in 100m lengths
